

EJAAD RESEARCH IDEA

A New Service is Published at
Ejaad Platform

The process of posting a research proposal that might be of interest to a certain industry

About The Research Idea

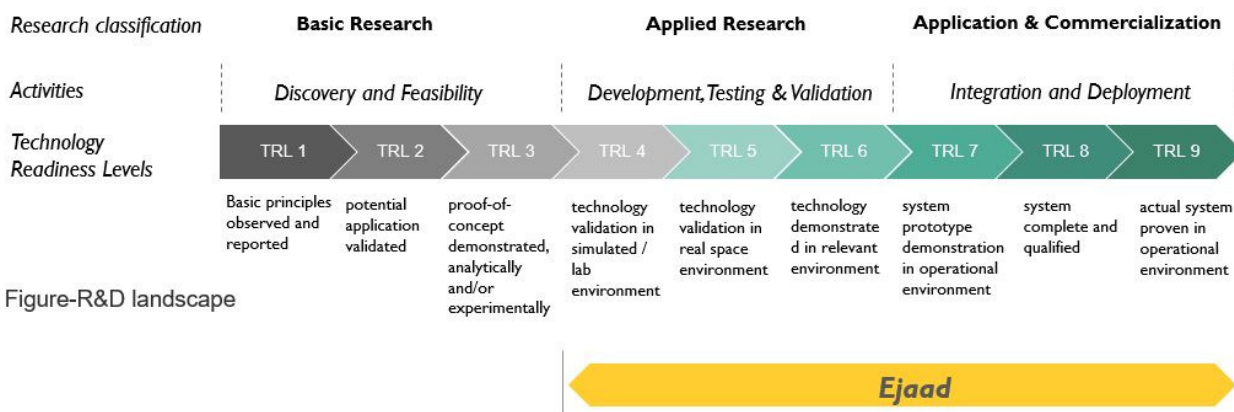

Research Idea is a new service published within Ejaad E-Platform where academia can post research proposals for viewing by relevant industries and for possibilities of funding opportunities.

Research Idea submission process consists of three main stages:

1. Pre-awarding: Posting of proposals by academia, and the selection by industry.
2. Awarding: Contractual agreement between the parties.
3. Post-awarding: Fund release, progress reports, review & feedback.

Research Proposals Criteria:

1. Applied research idea that seeks to solve a specific, practical problem of direct relevance to the industry.
2. Match well with Ejaad's focus areas including: Oil & Gas, Renewable Energy, Energy Efficiency, Water, Environment and any other related areas.
3. Preferably to focus on groundbreaking research topics and technologies.
4. Should have a clear industrial stakeholder.
5. Focus on mature research ideas of level 4 and above in the technology readiness level.

How To

Academia: Submit Research Idea Proposal

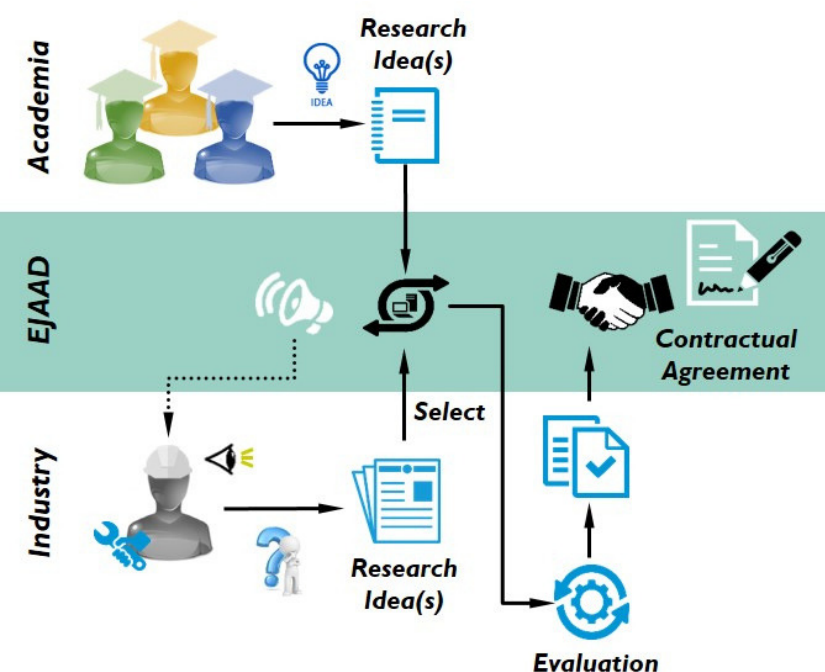

1. Access to www.ejaad.om, then click on **Academia** icon to Login. Select your organization and enter your institutional credentials.
2. To initiate research idea submission, click on **"Add New Content"** button on the right top corner of the screen, then click on **Ejaad Research Ideas** and select **Research Ideas** option.
3. Fill research idea template with all necessary information including the key information and budget.
4. Click on **Submit** and choose **"For Review By Research Focal Point"**.

Congratulations! Your idea has been submitted successfully.

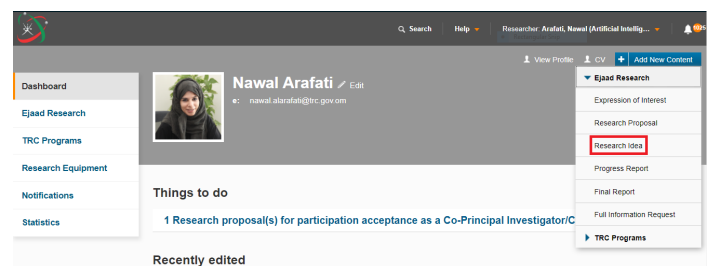

Industry: Select Research Idea Proposal

1. Access to www.ejaad.om, then click on Industry button to Login by entering your credential.
2. To check posted research ideas, click on **Ejaad Research Ideas** on the left navigator. Select **Research Ideas** option, a page with a list of ideas will appear.
3. You can check more details and information about any research idea by clicking on **Open** icon under each title.
4. To Select an idea of your interest, click on **Submit** and choose **"Selected and Under processing by Industry Focal Point (IFP)"**

Congratulations! The idea has been selected successfully.
