

Student IT Research Exposition

SITREX

7th December 2021

Student IT Research Exposition (SITREX) is an event for students who conduct research as part of their academic curriculum. SITREX is an online event that provides an opportunity for undergraduate students to showcase their research skills, presentation skills and sharing knowledge on the selected domain with their peers affiliated with University of Technology and Applied Sciences.

Research studies and research projects in the field of Information Technology at all stages of the research process are welcome!

Why SITREX?

- ✓ Presenting research in SITREX provides students with an important opportunity to share their findings and results with other students and faculty and gain valuable feedback on your work.
- ✓ It will also give students, a chance to present their research skills, presentation skills and professionalism.
- ✓ SITREX is a great place to network with peers and other professionals in the field of Information Technology.

Who can Participate?

SITREX invites undergraduate and graduate students across all specializations related to Information Technology under University of Technology and Applied Sciences.
